

CT-Guided, Full-Arch, Immediate-Load Training: Live Surgery & Hands-on

January 28-29, 2022 · Las Vegas, NV · Presented by Curry H. Leavitt, DMD, MS

COVID-19
Precautions
Taken

More than 36 million* Americans suffer from edentulism in at least one arch. A large and rapidly expanding full-arch implant center proclaims to have served over 50,000 patients and growing. Surgeons who are clinically prepared to meet this growing demand – through the most predictable clinical outcomes – will discover a market that is abundant with patients seeking full-arch reconstruction.

Clinical Training · Live Surgical Demonstration · Hands-on

Attendees of this advanced, two-day, full-arch training will learn:

- CBCT-based fully guided, full-arch implant treatment planning, from surgery to immediate prosthetic delivery
- Guided ridge reduction design and execution for surgical efficiency, optimized prosthetic function and esthetics
- Techniques for following a systematic digital workflow to achieve optimum implant positioning for full arch immediate load
- Review the benefits of full-arch immediate load with a digital workflow
- An efficient, scientific based approach that reduces chairtime, minimizes variables and increases profitability
- Vestibular surgical protocol to treat the hyperactive lip for a complete cosmetic transformation of the maxillary, full-arch smileline
- Marketing strategies for consistently attracting patients in need of full-arch, implant reconstruction, and case presentation techniques

FIRST CLASS
SETUP AND
DR. LEAVITT IS
EXCELLENT.
PROBABLY
THE BEST
COURSE I'VE
BEEN TO IN
10 YEARS
ON IMPLANT
TRAINING!

Curry H. Leavitt, DMD, MS

Dr. Curry Leavitt graduated from Temple University School of Dentistry, where he received numerous awards in research and clinical achievement. After graduating dental school, he was accepted into the University of Alabama at Birmingham's Periodontology program, where he received training in multiple surgical and medical disciplines.

Dr. Leavitt received dual certificates in Periodontology from UAB, and from the Birmingham Veterans Affairs hospital. Dr. Leavitt lectures nationally on the subjects of full-arch implant reconstruction, digitally guided surgery, ridge augmentation and esthetic gingival surgery techniques. He is also an adjunct professor at the University of Nevada School of Medicine's dental GPR program.
