

CT-Guided, Full-Arch, Immediate-Load Course

Presented by Bart W. Silverman, DMD

April 11-12, 2025 • August 22-23, 2025

New City, NY

More than 36 million* Americans suffer from edentulism in at least one arch. A large and rapidly expanding full-arch implant center proclaims to have served more than 50,000 patients and growing. Surgeons who are clinically prepared to meet this growing demand—through the most predictable clinical outcomes—will discover a market that is abundant with patients seeking full-arch reconstruction.

Clinical Training · Hands-on

Attendees of this advanced, two-day, full-arch training will learn:

- CBCT-based fully guided, full-arch implant treatment planning, from surgery to immediate prosthetic delivery
- Guided ridge reduction design and execution for surgical efficiency, optimized prosthetic function and esthetics
- Techniques for following a systematic digital workflow to achieve optimal implant positioning for full-arch, immediate-load
- Benefits of using a digital workflow for full-arch, immediate-load
- An efficient, science-based approach that reduces chairtime, minimizes variables and increases profitability
- Marketing strategies for consistently attracting patients in need of full-arch implant reconstruction
- Case presentation techniques to increase treatment acceptance

Bart W. Silverman, DMD

Dr. Bart Silverman received his doctorate in Dental Medicine in 1986 from Fairleigh Dickinson Jr. School of Dentistry, where he was a member of the Omicron Kappa Upsilon Honor Society. He completed his Oral and Maxillofacial Surgical residency at Westchester County Medical Center in 1989 and was Chief Resident during his final year. Dr. Silverman is a Diplomate of the American Board of Oral and Maxillofacial Surgery and a Diplomate of the American Board of Oral Implantology/Implant Dentistry.

Dr. Silverman is an attending physician at Westchester County Medical Center, Department of Oral and Maxillofacial Surgery; a Clinical Associate Professor at New York Medical College; and an Adjunct Clinical Associate Professor at New York University School of Dentistry. He lectures nationally and internationally on subjects including single-unit and full-arch, immediate-load.
